THE KOSOVARIANS IN YUGOSLAVIA

KOSOVITA which is under the Yugoslav Administration expects to be liberated by the NVA, and is not on the list of the Prisoner Committee.

The Committee of PRISONERS has no KOSOVARIAN elements in it. Indirectly have been proposed some KOSOVARIANS who have rejected the offer saying they filled their actual conditions. They have declared themselves ready to serve King Zog, if there is going to be them.

In Kosovo the Kosovarians are looking on King Zog and know no other name. They don't know the NVA and know perfectly well the aims of the Yugoslav Administration. They don't know the different political parties.

The Kosovarians have had acquaintance of the Balli Kombetar especially when they were in the hands of the fascists and Nazis and had a bad behaviour towards them.

The Kosovarians don't trust Balli KOMBETAR because the Balli KOMBETAR have always been the friends of the Serbs, and have never had a good behaviour with the Kosovarians.

They don't trust either PAVICIC either because in 1941 they caught (they caught) facts of his relations with (3 names) Draskovic, former Co. Leader of the Kosovarians.

They know also Mark GJOCI as a traitor in connection with the Serbs.

They don't like either NVA because during the German occupation he enrolled 300 Kosovarians in the "SS Balkanische Kampfgruppe" which was used by the Germans for the Yugoslav war on behalf of the Germans. At the end either NVA took a German plane and left for Germany without taking care of the Kosovarians in the aircraft which he had recruited and used with German money. They consider he can't do anything for Kosovo.

They consider either TOSICA, the instructor or organizer of the Prisoner Committee as these were enemy and are expecting the Germans to take his place as his collaborator TOSICA.
